Editorial

Finally we are back to present you another issue of your (hopefully) beloved papermag Milestone. This time Milestone contains something completely new for us. Yes, PHOTOS! After a lot of pressure from our readership I decided to do it. I always refused printing photos because of the bad quality the photos would have... Well, when you turn the page you can easily see, that we solved this problem! This is the best quality which can be used to print photos (all big magazines use this kind of technique...)! I hope you're really gonna like it! A very special thank must fly out to the dude who made this quality possible: Jens Neumann (or better his mother)! In one day four hundred copies... Thanks a lot again! I'm also addicted to the guys who sent me the photos. They are **Incubus/Antic** and **Neotec/Rebels!!**

Thanks to you!! Without your support we would have never be able to print photos! You'll get the originals immediately back - undamaged of course (as I don't use any kind of adhesives!). This should also be a kind of invitation to all you outside! We need YOUR support for this mag! We'll never need as much photos as other mags, but nevertheless we need some! So please - if you got some funny photos (they must NOT contain so-called "elite" guys!!) just send them to me! You'll get them undamaged back after printing it and you're doing a great job anyway... But don't be afraid. Milestone will **never** be a photo-mag! Our mainthing will be the texts (hopefully interesting ones) and not the amount of photos. Ok.? Now to something completely different (any similarities to famous english TV-series, produced in the late 70's (starts something like "Monty..."), is accidental and not wanted!): We didn't got demo-reviews. This is lame (my opinion). But Triad or better King Fisher is the reason for it! He wrote in the final scroll of the Demo "Red Storm" a lot about demo-reviews and his opinion about the scene. (that no one has the right to judge about another ones job, as the scene is just to be meant as entertainment and everyone can do what he want). Well, little Nyarlathotep read it and agreed. Unfortunately. Now he thinks he hasn't got the right to judge anyones work. A

pity. I guess we'll never have demo-reviews again as King Fisher isn't that wrong. Now to something completely different (see above): The Cover-Competition. Maybe you're remembering the our little compo, started nearly ONE YEAR AGO... Still not closed I can tell ya! The reason? Easy! We just didn't got enough COOL covers! There is still the chance for YOU to paint a COOL diskcover for Milestone and to win a couple of nice prices (just read the January/February issue'92). PLEASE - talented diskcover-designers - PAINT A LITTLE COVER!! Again to something completely different: A man with three heads. Sorry! **I WANT REACTIONS ON THIS ISSUE!!** This time we received only three - very short ones! I guess that this issue

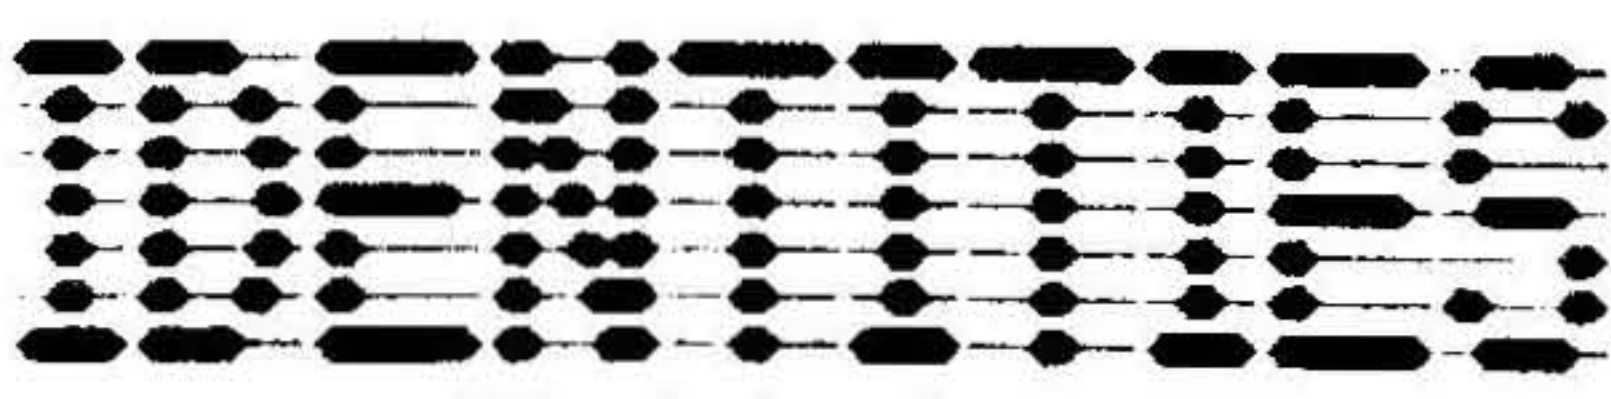

contains enough things to criticise or even to praise. So please! Write some reactions. I won't beg, but other mags got a load of rk's and little Mike always has to answer on a very small amount... (snif). Oh look, a flying sheep. I guess I haven't filled this page... Hard. What to write? Many of you wanted to see a photo of me. Well... maybe next issue. But if you want to meet me "live" you can come to Venlo or to the Christmas party in Aars (I guess I'll be there). I don't know whether or when the Legend/F4CG party will

take place but maybe I'll be there too. There should also be a Padua party in Ludwigshafen (only 50 km's from my home). If this really takes place, I'll be there for sure! You see, there are a lot of possibilities to meet me. If you don't take your chance, you're going to miss something (hehe). Finally some serious words... Sunrise is not dead as some nerds are boasting around. Of course, we aren't the most active group nowadays, but who isn't? Its just a nasty rumour, spreaded by some dudes who are jealous or whatever. Never believe them!! And this is the end of this Editorial! I know that there is still some space to be filled, but this should be no problem as I filled 23 pages until today. See you somewhere and I really hope that

Later, friends!

Mike

PS You see. Its easy to fill empty space just by writing crap. That is a kind of art! Believe me.

This is NME of Illusion. What a big photo. Taken in June '92, England

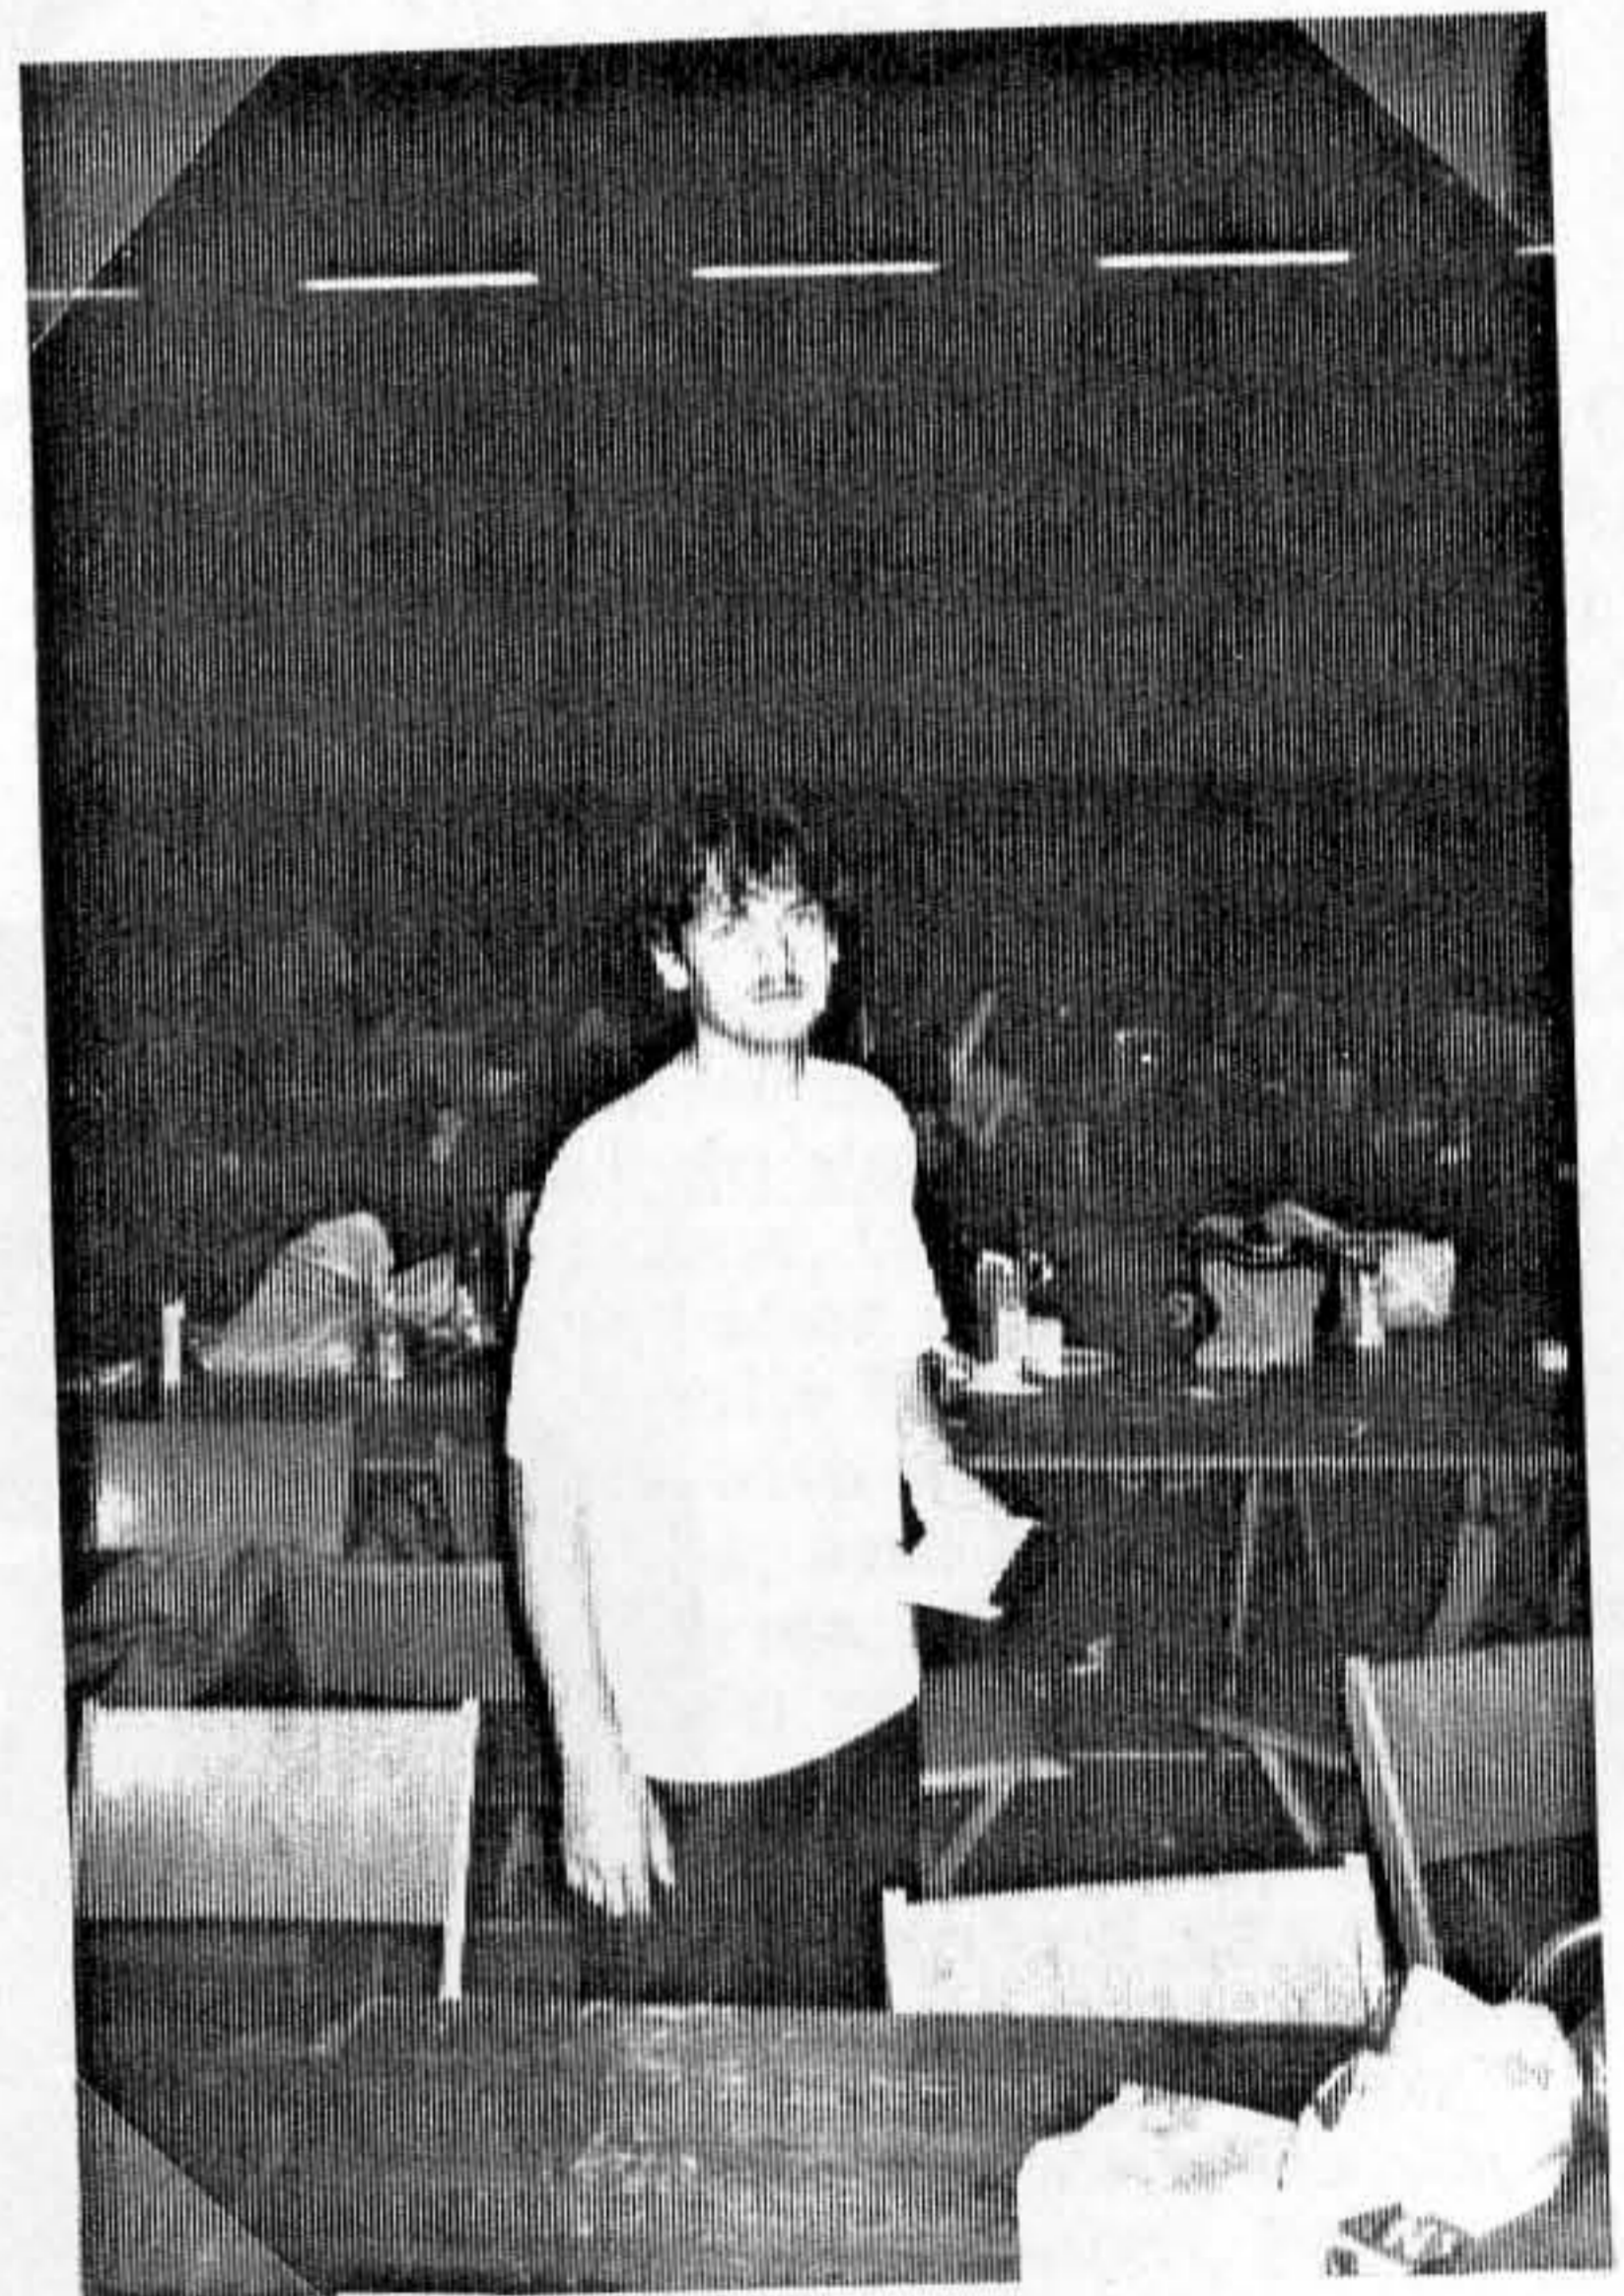

Chief of Padua and Illusion. It's a pity that he didn't look directly into the camera. Photo taken in June '92, England.

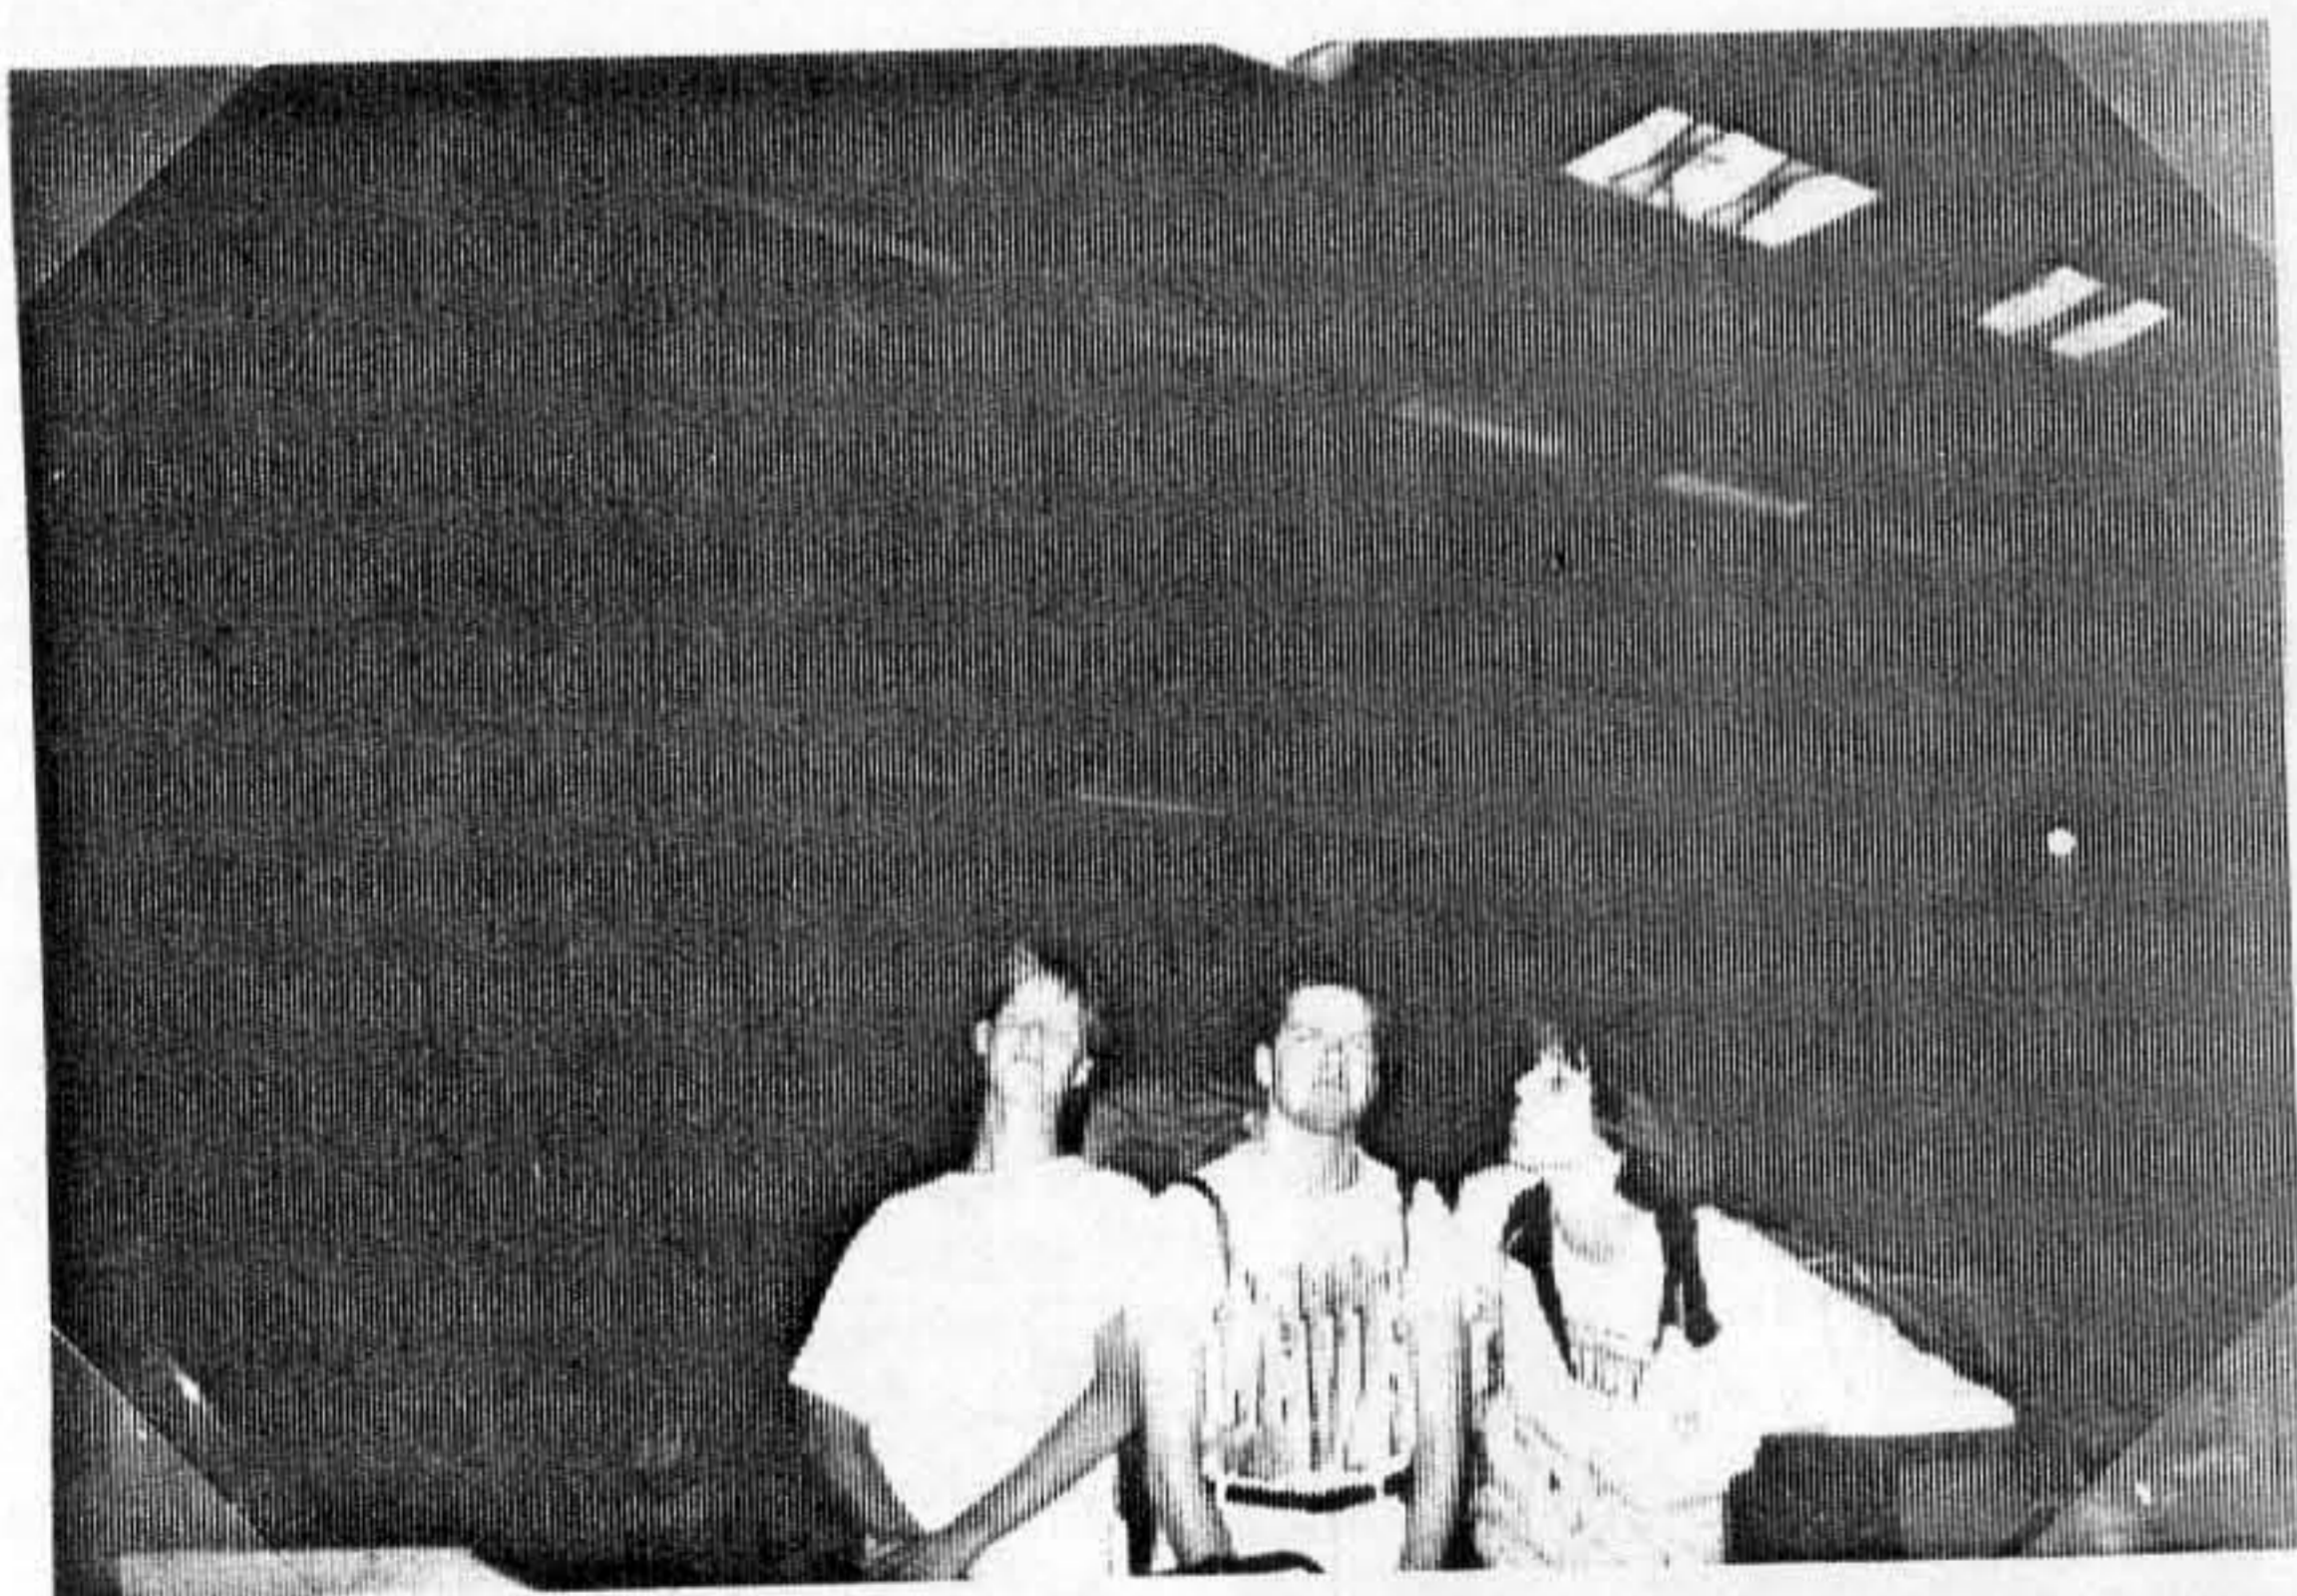

Some Light-members, presented in Sansa. From left to right: Goblin, Spirou and Waco.

This is one of the friendliest guys in the scene. He made a lot of these photos possible (thanks again!!) Known as Incubus/Antic.

You all know him and that is how he looks like: TTS of Oxyron.

The Flash Inc. tribe at the Brutal Party. From left to right: Creeper, The Spy and Morpheus.

What happened last month?

As you should already know... we divide the "news" into two groups: Things that happened lately and things which happened during the last months (but which are interesting anyway). O.k.?

Actual Stuff

- Red Sector Incorporated is back on the 64!
- Irata** rebuild this group together with ex-Hysteric and more. Their first first-release was "**Szenario**" (end of August). Actual memberstatus is: **Irata** (ex-RSI), **Mr President** (ex-RSI), **Benson**, **Psychobilly**, **Termo**, **Dense**, **Sir Maniac**, **Aslive**, **Street Tuff** (all ex-Hysteric), **Image** (ex-Nato), **Weasle** (ex-Enigma), **Joop** (ex-Legend), **Lazyness**, **Brego** (both ex-Arcade), **Scat** (ex-Sunrise), **Posdnugs**, **Anarchy** (both ex-Curve), **Icarus** (ex-Legacy), **Double-T** (2 persons), **Wizler** (both ex-TRSI), **TWC** (US) and **Headhunter**.
- Hellfire** was in RSI for a short time but left the scene because of beeing caught.
- Varlord** (ex-Hysteric) got kicked out of RSI
- Scater** and **Mirage** (both ex-Censor) joined **Legend**. **Shock** is now a **Legend** mag!
- Also **Airwolf** (ex-TAT) joined **Legend**
- Legacy** is dead
- Astaroth** (ex-Legacy) joined **Spirit**
- Rough** rejoined **Chromance**
- Panther/Brutal** left the scene. His mag **Independent** is dead now!
- TRC** got a new board: **Galaxy High** together with **2nd Dimension**
- Case** (Switzerland - not Case/TAT) joined **TRC** as coder/modemtrader
- Romours going around that **Jack Daniels** left **Dominators!** (this is the reason for writing "???" in the charts as groupname for **Corruption**)
- Hoteley/G*P** got caught for phreaking
- Hotline** is dead again! **Lexy** joined **Device**.
- Silver Surfer** joined **Success**
- all active **X-Factor** members joined **Dominators** (**Ecco & Exulans**)
- RCS** got kicked out of **Legend**
- Baze** left **Illusion** to join **Legend**, but returned after a few days and dropped most of his contacts (he got 56 left)
- Agnus/Comic Pirates** joined **X-Factor**
- Buddha** (subgroup of **Faces**, members are **Cellux** and **Streamline**) left the scene! **Cellux** will concentrate on learning and that stuff in the future.
- Warhead** got kicked out of **Faces** and joined **Chromance**
- Sir GBS** and **Yale** both ex-Fate joined **Faces**
- Mix Max** (hacker) joined **Illusion**
- Caladan** is rebuild again. Short after **Secret Man** left RSI and joined **Caladan**

-**Destiny** joined **Chromance** as a fixer

What happened last months?

(things which stood on the backside of the votesheets we received...)

- Dense**/RSI joined **Spirit** as a second group
- James Dean**/Giants left the scene. New **Giants** leader is **Faroul** who joined **Lore of Arts** lately as a second group
- Death** got kicked out of **Oxyron** and rejoined **Hitmen**
- Chotaire** left **Image**
- Franky**, **Roman**, **Narrow**, **Hagarr** and **Split** got left out of **Sunrise**, because of lazyness and inactivity. Later on the Berlin dudes joined their local friends in **Padua** together with **Syndrom/TIA**
- The Imperium Arts** is now a music label
- Curve** seems to be dead, as **Posdnugs** and **Anarchy** joined **RSI** and most other members joined **Trance!**
- The planned **Papermag "Bizz"** (from **Anarchy/Curve**) will never be released (Ed. This is a romour I think or am I wrong?)
- Experts** is a group which was build up by **Canabis** and **Huke**, both ex-Princes
- Princes** are dead.
- TBB** left **Chromance** and joined **Arcade**
- Trice**/ex-Oxyron joined **Clique**
- Zooky** left **Clique** and the scene to go for **Amiga**...
- Also **Truse**/ex-The Cure joined **Clique** to spread Clq in Australia...
- Ragman**, **Phoenix**, **FEF**, **Ansgar** and **Cyborg** got kicked out of **Comic Pirates**
- Nameless** joined **Exzess**
- Led**/Extacy renamed into **Scov**

Did you know,

- Well, on page 15 you can read the first part of the D.y.k.'s! This are just some left ones...
- that **Galen/TNC** will organise a "Good-Bye-Death"-Party if **Death/Hitmen** really fulfills his promise to leave the scene because his twelve year old girlfriend **Curley Sue/TNC** left him..?
 - that **Trigger/Enigma** and **Erotyc/Sunrise** are doing a game together?
 - that **Mr Mouse/Xentax/Blaze** formed a kind of "Antifa"-Group? Everyone who doesn't accept the upgrowing nacism in whole europe should do something against it! The "United Europeans against Neo-Nacism" (U.E.A.N.) are trying to do exactly this by spreading demos or notes or something like that. Everyone who wants to join U.E.A.N. should contact him!
 - that **Always Ultra/Giants & The Bomb Jack/Blaze** pretends to be left-radical?
 - that I hope that this page is filled now coz I simply got nothing left which can be print now?

Diskmag Reviews

Brechnews #27/Dumminator Design

Intro I: it seems that it was done with a kind of Demo-Maker. A lame logo and no music = lame!

Intro II: the same fuck! A terrible logo, no music but some terrible noises and the half of the part is totally bugged!

Menue: maybe the best of the mag but it's nevertheless just average. You can see some TV on which the following chapters are present (the whole mag is joy-controlled):

Editorial: just some shit is in it ("we rule..." etc.)

Charts: of coz cheated. The first three places. The others like Beyond Furz, Nyarlairgentetwas or Shitmania are following. Really the highest level of lameness!

News: some shitnews are printed like T(he) R(otten) S(lime) left A Piss Connection and joined Lower Loeffel. Lame like hell!!!

Reactions: I don't know why it is called reactions? There is just a letter with some fucking contents.

Reviews: 2 fakemags are tested. Like in the whole mag some shitty comments.

Addies: some fake addy from Klaus Topfer,.....

Party-Report: they describe the Brutal Party in Denmark and how cool they are (???)

Mixed Shit: one interview but it's (hm, i guess i used this word very often) L A M E!!! then some jokes are printed (sometimes I was able to laugh about it...). At last (yeah) some lame Did you know's!!

Comment: Just this: Stop producing this mag 'coz it takes 1/2 place from a valuable Disc. Totally L A M E mag!!! Maybe its because I think all so-called "fakemags" are useless! We only tested it that you all know what a fucking shit is spread today over the scene!!

Rating: 14 out of 100 (worse)

Genetic Dreams #14/Trinomic

Intro: very simple, but... o.k.!

Menue: at first it looks like a normal menue. But then... a big 'n' fat '-' for the veeeeery slow and uncomfortable scrolling! You can choose the following chapters (whole mag is joy-controlled):

Foreword: like in all mags. Some words about the new outfit (in my opinion a good one, but there is the veeery terrible scrolling!!), the credits and the list of contents.

News: very less news. And not very much 'ELITE' (I hate this word!!) news. but who cares...?

Charts: very long ones. But I think it's not necessary to print a group which got only 5 points, or!?!?

Megacharts: Its my opinion, but I won't cry if they wouldn't exist!

Interviews: 5 ones! with PJ Dinamix/Comic P., Incubus, Joe (both Antic), L'Trimm/X-Rated and the Executor of Vagabonds. It's very boring to read all time the same questions, but I don't mean that the questions are boring!

Demo Reviews: Hmm, it's like in all mags. 8 (!!!)

Demos are tested

Crackreviews: ...again some reviews.

Boardnumbers: here are very much boardnumbers printed. Some dead boards. a lot of groups are wrong... but who cares...

Searching: I think they can drop this chapter!!

Reactions: not very much. One smells like slime, but the others are critical!

Odi for Yo: Ooh, what's this for a shit!!! DON'T PRINT SUCH A FUCK !!! (Ed. seems that he doesn't like Rap)

Mag Review: 6 mags are veeery well tested (like I do it, hehe)

Comment: Genetic Dreams is not to find on a top place in the charts. I (!!) think that's right. They must change a lot like the scrolling, the chapter-choose-system (!), dropping some silly chapters... So it's just one of the much average mags!!

Rating: 70 out of 100 (average)

LP-Tests

Soul Kiss (Glide Divine)/Spectrum

(Silverstone'92)

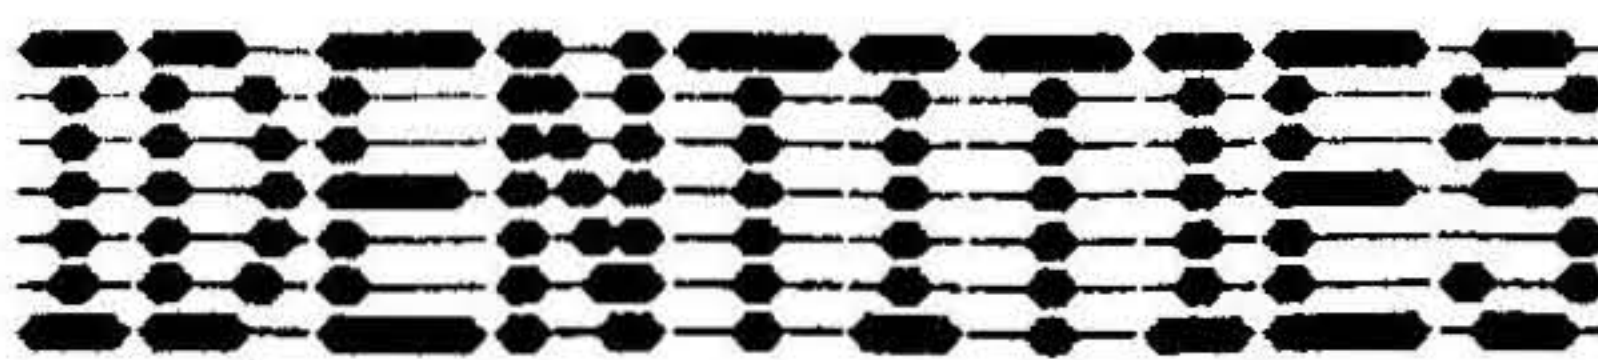

I don't know the band so I can't give you a background. The music could be described as a mixture of Independent and New Age. The first track "How you satisfy me" got some airplay on MTV's 120 minutes and is absolutely unique, like a synthie-based version of "The Doors". The rest of the CD features 11 tracks which could be described as a commercial version of New Age music, very warm and calm, with a few vocals here and there. Warning! Never use this CD as a background for any kinds of smoking sessions! It's hard to judge on this piece of music, the first track is a killer, while the rest is something for New Age freaks and drug addicts. Listen before you buy!

Rating: 8 out of 10 from my side...

About Venlo!

Well, I think its time to clear up some things... (and this page is empty at least). Everybody keeps telling of Venlo beeing lame, although he hasn't been there for ages! Its definately true, when you look at the "stuff" which is spreaded there (one disk? a half?). But do you really want to drive a huge way only to copy some lame disks? Or is there something more? Venlo was in the past always the place where you could meet friends, you usually only know by phone or even only by notes. And this should be also the reason today to come to Venlo! Are you all little children who aren't allowed to drive the way or way is the whole masse still pretending in this silly opinion that Venlo is lame! Hey, when you all would come to Venlo it would never be lame!! Ask Remix about his opinion and he'll tell ya. But stay at home, and enjoy your fucking machine. That's the right way! I will still go on to drive to Venlo. And if its only because of meeting ONE other friend there! Just think some seconds...

INTERVIEW!

The following interview was done on the BRUTAL party this summer and features drummer Eddie/Dystrophy (also known as Numskull/Offence) and deals with his career as teenage idol...

(?) - MILESTONE

(!) - Eddie

Introduction:

Handle: Numskull

Tribe: Offence

1st 64: 1986

Other tribes: Extreme, Nato, Traitors

Interests: computers, music, discos, hunting chicks

Status: working as programmer (apprentice-ship)

? Allright, you're playing music in a Death Metal band... called?

! Dystrophy. In September (92) we're gonna release an LP.

? On which label?

! Nuclear Blast

? How did you manage to get such a deal?

! Well, someone with good connections to NB visited a concert and invited us. We already had a demotape and now an LP is planned.

? Did you already deal the financial stuff?

! Well not completely, we got a contract, but about the money, that also depends on the sales...

? You know, especially on the Death Metal sector a lot of bands are ripped off by small labels, like Turbo...

! Sure, but we hope that's different with us...

? The financial things are managed by yourself?

! Sure.

? How much time do you spend on music?

! Well, we practise twice a week, except the time before concerts, you know, for example in August (92) we have a little tour, that of course means more practicing...

? And what do your parents think about all this? Any problems?

! Naaah, well they like it... it's just my hobby, what should they say... they ain't say nothing anyway hehe...

? You're a quartet right?

! Yep.

? Then how do you deal internal things, like songwriting and that stuff?

! The singer writes most of the songs, the texts anyway, coz he has to sing them... now and then I add something, or even write myself.

? About texts... what kind of subjects do you handle? You know why I ask this...

! NO satanic stuff! (grinning) Mainly against discrimination... all kinds of subjects... although it's Death Metal! (grinning again)

? Back to your album. Already got some plans about covers and that stuff?

! Yeah, we got some dudes who do it... quite cheap. Good friends who are really into it.

? You know there's a lot of "mainstream" Death Metal, but also some bands who try to go new ways, like Pungent Stench and others... How would you describe YOUR style?

! Well in a way we do our own business... Some say we sound like Death (the band), others even compared us to Sepultura, something we didn't like at all! Well, we got some slower parts, but mainly fast stuff.

? What kind of gigs did you have up to now, tours with bigger acts and that style?

! Hmm, we had gigs with Massacre (the frenchies), Demolition Hammer, Disharmonic Orchestra, Atrocity and others. We had tours of course in Berlin, France, North Germany, but mainly in the area (South Germany).

(to be continued on the next page...)

INTERVIEW!

? How do you cope with other bands?

! Well, we made friends with Massacre, they want to organise some gigs for us, furthermore... we don't have problems with other bands, they help us concerning gigs etc., and we help them...

? Got any reviews on your concerts or demo tapes?

! Jaaa, lately we found out that our tape was even reviewed by a mag on the CSFR. Besides, our tour dates were printed in Metal Hammer, Rock Hard and others, and of course we got some interviews etc. in underground mags.

? What kind of negative criticism did you get?

! Well at home, that's the area around Stuttgart, we're quite well known. Not as "stars" or whatever, but as humans. And it seems that some people are simply jealous, and sometimes simple lies are spread about us to make us down. Not by the press, but by people from our scene. To give an example: At a time when I've been in the band for not too long, we had a gig with an ultimate bad soundcheck. All I could hear from the monitor box was one big jam, so I had some problems during the concerts. And next day I enter the "Rockfarik" (a club) and receive a package like "Hey Eddie, I heard next gig another drummer will play?". This was spread by one certain guy who is quite extreme in this way. Just these naggings, you know.

? A word on your singer...

! Oh yes, he only got one hand!

? So he uses a grappling iron?

! Eh, not exactly. He grips (hard translation, gripping accords you know) with his right hand and on his left arm he wears a little copper blade. All those guitar heroes, say Eddie van Halen or whoever should really be lucky to have two hands!

? If you're honest... how would you judge on the skill of you and your fellas?

! Ah, well the guitarist kicks ass. You know, he sings, plays guitar with one hand...

concerning critics, usually they say something like "singer and drummer were best". Our bassist doesn't play that long actually, say two years, and the second guitarist something like three years (me 5).

? When you're co-starring in songwriting, where do you get your influences from? What kind of music do you like apart from Death Metal?

! Apart from Death Metal... hehe, I got to admit that I got stuff like Bryan Adams. Just for a change and... one has feelings too... (giggles)

? You don't really match with the prejudice of the long haired Death freak. How comes?

! Are they short? Yours are shorter! Alright it's not exactly a heavy cut. It was more or less an accident. I used to have long hair up to the shoulders. Well... and we have kind of a private barber, a girl from the CSFR. I wanted to have my tips cut, but the girl got it wrong... ehem, they're growing again...

That's it for the interview. As it was already done in June, so here's an update from October...

-a single featuring 4 songs is right now in process of being pressed and will be out end of this year

-it features a female opera singer and some classical instruments such as violine and flute -german punk band Normahl work out a sweat as background singers on it

-lately Distrophy had a lot of gigs in the eastern parts of Germany

-a tour with dates in France, Belgium and Germany is in sight

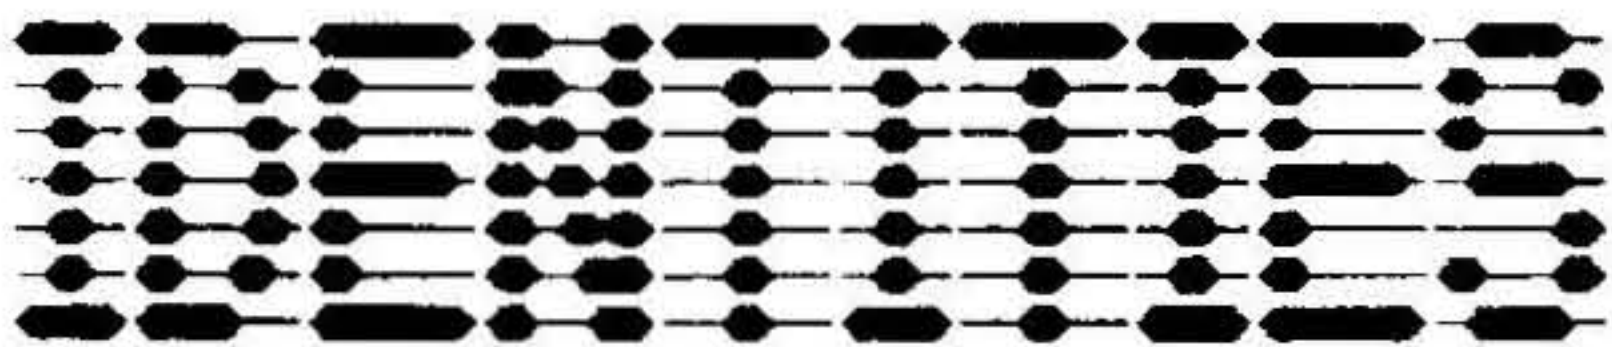

-one guitar player was replacedm the new one is just getting father

-Eddie MAYBE gets a sponsoring contract with Sonor

-and the LP is still planned

What to add? Buy or die? Bang your head till you're dead? Hopefully the sales will allow Eddie to afford a professional barber...

Love, signed the MILESTONE mobile molesting mission...

ON STAGE

CONCERT-REPORT: Danzig

Entering the PC 69 in Bielefeld we first had to pass the pretty girls selling Tour-T-Shirts. Hoping to convince the well-built girls to try on some of the T-Shirts time went by and White Zombie began to play. Although nobody wanted to hear or see them, their music was bearable. After about 35 minutes White Zombie was done with the attempt to make music and cleared the stage for the men everybody was waiting for. The concert was completely sold out and at the print the master appeared on stage everybody tried to fight his way to the front. As expected any kind of greeting his audience was left out. Instead Danzig started with the mixture of the three records Danzig, Lucifuge and How the gods kill. His performance on stage was as usual. Danzig convinced with his songs like Twist of Cain, How the gods kill, Dirty black summer, Am I demon, and of course Mother. Surprisingly was Danzig's social behaviour. He gave away "Plektrons" and didn't once use his glove (to knock out stagedivers). The security was over busy to save the squashed first liners. But the helping hands were too late for one fan, the one and only Anal Warrior. The fact to see and even touch Glen puls the pushing crowd, which only gave you some space for head banging, was too much. He fainted away and woke up hours later in a one-bedroom-appartment (Ausnüchterungszelle) after getting his stomach pumped out. We also should mention the fact that Danzig was willing to play some "extra songs" which gave the audience the rest. All in all 90 minutes of best music, great atmosphere and a few bruises.

Alien 3

...the horror continues...

"Alien" was a calm Ridley Scott film (1979), while James Camerons "Alien - The Return" (1986) was packed with action. Now lets see what "Alien 3" is like:

It's made by a third director, David Fincher, but still Sigourney Weaver is playing the main

character Lieutenant Ellen Ripley. With a spaceship, she has a crashdown on a planet called Fiorina 161, which is used as a prison. She's the only one who survived the crash. Nearly! Because a typical "Alien"-Alien doesn't care about one (or two) crashes... Very soon a prisoner's dog becomes infected with a new Alien's genetic information and it doesn't take long until it slips... and murderers... When they make plans to get rid of it, Ripley and the prisoner's notice that Alien even doesn't fear fire. Their plan fails. And, as if this weren't enough problems, Ripley investigates herself and notices that an Alien-Queen is growing in her body! Help from outside is not to expect - the opposite is the case. The state wants to save an Alien to create biological weapons... Looking at the quantity of action, "Alien 3" stands between its both predecessors. It's more funny than parts one and two, especially at the beginning; there are some good, macabre jokes. As the Alien's design was done by H.R.Giger again, it looks fantastic - and it is to see completely (not only parts of it). The other things don't look like Science fiction, don't look like High-Tech; e.g. white is missing. Very well made and atmosphere-creating are the fast sequences in which the Alien is running and the camera looks through its eyes, if you know what I mean.

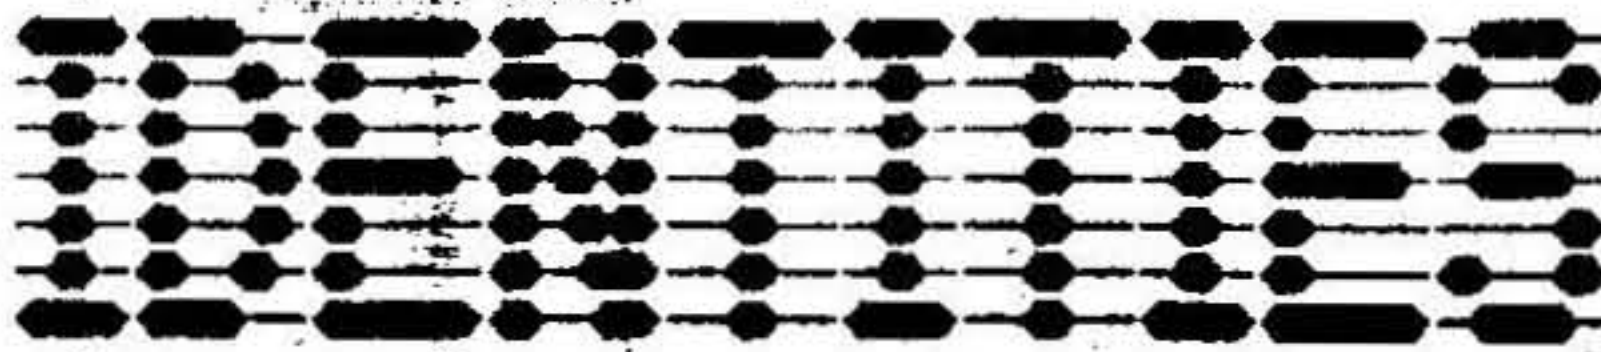

Rating: 80%

Note: lasts 117 minutes, FSK 16

LATEST RUMOUR

The latest rumour going around (I've just heard it today and therefor skipped another cinema-review) says that the german Telekom has installed a kind of surveillance on Blue Boxing! All guys who uses Blue Boxing in Germany got traced and registered. Everybody has got its own account, where all calls he does are stored and counted. Telekom didn't stop the Blue Boxing in order to get the costs which AT&T and MCI demands from Telekom completely payed by these dudes. At the end of this year some very high bills should be sent out these poor guys. If this is really true (I doubt it because it is of course not the right way (I mean when you look at germans constitution, they havn't got the right to do something like this)) this will be a hard shock against the (at least) german Amiga and 64 scene. I can't imagine what will happen if this is really true.

Reactions

Hi Mike! Some words in Milestone are written in german! For example "Punkte" in the charts. Change it immediately or we'll die...? Eh?

(Roman/Padua)

You're right! Only a few seconds and we would have been all dead. Puh. Now all is cleared I hope! C.U.

Milestone is one of the ruling scene-mags. If you want the 1st place (if you haven't it yet?) then publish some photos. Would be cool. Think about it.

(Mr. Legal/Trinomic)

Of course we want it! You're only the last in a row of guys who wanted us to print photos. And so we did! I hope that you all will like it!

Hey, looks quite cool. I don't know how cool its compared to the others, coz diz is the 1st I ever have got. +I mean Papermags...

(Scov/Extacy)

I can tell you seriously that you haven't missed anything if you've only seen this mag (Hi Dense... hehehe). And after we printed photos we're of course simply great! (Ed2: Hey, this is called ironie!) (Ed1: Did you thought they wouldn't recognize it?) (Ed2: Yes!)

Milestone is cool, but it should have some more pages, if possible!

(Dr. Lecter/Creatures)

No, sorry! It is -at the moment- NOT possible to increase the number of pages as we have neither the money nor the support (I mean articles and that stuff) to print more! (most important reason is of course, that most of our readers don't want to pay the ridiculous amount of money it costs now). Sorry!

Did you know,

This time again a quite good, interesting, amount of D.y.k.'s!! Enjoy:

-that Nyarlathotep is the laziest coder in the scene?

-that Nyarlathotep uses to put FOUR filled spoons of sugar and a lot of milk in this coffee? (Ed. Bah!)

-that Nyarlathotep used salt instead of sugar as he visited me... must have been a very nice taste!

-that L'Trimm's dog is deaf, blind and has lost two teeth?

-that Trash/Sunrise is a great Michael Jackson Fan? (Hi Marlon...hehe)

-that the most popular mag-editor (no, not me!) Remix/Clique edits a real papermag (in turkish)

which is simply professional (sold through whole turkiye) and that he can live of the money he earns?

-that Remix visited Venlo and was deeply impressed by all the talks to friends he usually never sees? Hey man! THIS is the reason for driving to Venlo! Think about it!

-that Nothingface/Clique lives in a "town" which hasn't got electric light? (Hi Uwe, hehehe, wie geht's auf'm Berg?)

-that Remix has learned a lot of german while driving three and a half hours to Venlo together with Nothingface, ANS, Sir Maniac and me?

-that Clairvoyant/Faces uses to write very, very much news on the backside of Votesheets?

-that Techno usually has the lowest Bass-frequencies (even Hip-Hop and Rap songs don't reach it)

"Sweet little Antichrist! Butter won't melt in his mouth...!"

-that in Monchengladbach (Germany - near Venlo) is a big Tekkno-Party every Sunday. It takes place in a disco called "SUNRISE"? Very nice name...

-that a certain Berlin dude is smashing some very funny abusive names in direction of Sunrise?

-that this certain dude is the best coder but unfortunately hasn't got the time to code anything? Poor guy!

-that Techno-songs are often made with a normal Amiga, a sampler and a keyboard?

-that Pussymaster/Trinomic collected his Software-Porno-Collection from "Altpapier-kontainern"?

-that Drago/Hitmen fell through the roof of his working place (but nothing seriously happened)?

-that TFD/Nirvana already had over 20 C-64 but destroyed most of them with his soldering-kit?

-that walking-stress is the biggest tea-drinker in turkiye?

-that Crossbow/Crest offered in one of the biggest Advertising-mags (Computer Flohmarkt) that everyone who would send him 5.- DM could see himself in the greetings of the new Crest-Demo? Nice idea to earn money!

-that you must be 1.without any work (going to school, studying or just doing nothing) or work at Telekom and 2.talk a lot of shit if you want to join RSI?

-that this sounds quite similar to the rules if you want to join Sunrise? 1.be very lazy and 2.drink very much...
